It is a unique way of SMS advertisement & SMS marketing

"Reach your customers or contact them anywhere, anytime by sending SMS messages to their mobile phones using this easy to use, cost-effective system"

"v Business Promoter: The world's most fast & advanced bulk SMS software - send SMS messages from your desktop PC Now"

v Business Promoter is fastest and easy-to-use & powerful windows software to send and receive SMS messages. It allows you to send marketing & advertising SMS and receive response SMS from the computer.

It differs from other desktop texting software which relies on an Internet SMS gateway. Instead, use your existing mobile phone, GSM modem or cellular terminal and connect it to the computer. The connection can be done via a USB data cable, serial data cable or Bluetooth COM port.

Designed with bulk SMS broadcasting in mind, **v Business Promoter** helps you manage your marketing campaigns and send customized messages to your target groups or contacts. Since SMS is fast and cost effectiveness, messages like promotion, reminder, alert, special notice or statement are well suited to be delivered by using v Business Promoter.
